CAMBRO® Patient Care Solutions

Over **70** years ago, Cambro revolutionized healthcare meal service, making the first ever Camtray® for healthcare. Today, we have continued to innovate and offer comprehensive solutions that address dietary compliance, food safety, and operational efficiency, ensuring the best quality for patients, staff, and visitors alike.

Our temperature maintenance systems, meal delivery carts, storage, shelving, and personalized trays are designed to exceed patient and staff expectations. With unmatched durability and ease of use, our products are built to last.

Cambro prioritizes food safety, temperature retention, and efficient storage to prevent foodborne illnesses while preserving meal quality. Streamlining meal prep and delivery, reducing service disruptions and maximizing efficiency, our ergonomically engineered equipment supports your team in following regulations, delivering exceptional service, improving patient satisfaction, and contributing to better health outcomes. Let Cambro help you enhance your patient care and dining operations.

TRAYLINE or ROOM SERVICE

Streamlining Meal Service for Improved Patient Care

Temperature Maintenance Systems

Camduction® Complete Heat System

Complete Heat System remains the leading choice for maintaining hot food at safe temperatures. This highly efficient and cost-effective system is ideal for acute or long-term room service.

HOLDS FOODS SAFELY AT
140 °F
(60 °C)
for up to **45** minutes

Heats **20** bases in just
5 minutes,
allowing a continuous stream of bases

FITS
9" (23 cm)
PLATES

Camduction® Bases

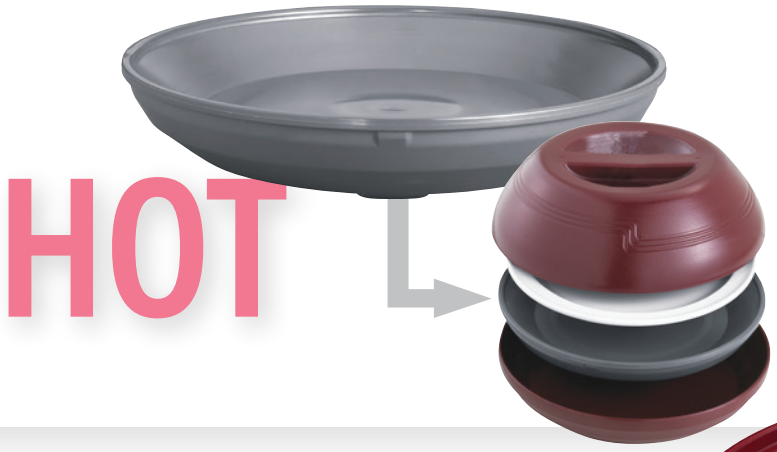

- Durable, dishwasher-safe bases that resist chips and cracks.
- High-density plastic composite material designed to hold heat for extended periods of time.
- Available for all meal delivery ware collections.

Camtherm® Thermal Pellet System

An alternative for optimal heat retention that holds temperature for 60 minutes or more.

- Retains heat in the core for safe temperatures for up to 60 minutes.
- Remains 20˚F (-6,7˚C) cooler on the edge for protection from burns while handling.
- Maximizes heat retention and durability with long-lasting high-density plastic.

Heat Keeper Insulating Base System

A cost-effective solution for heat retention that holds temperature for 20 minutes or more.

- Ideal for short room service deliveries.
- Resistant to stains, odors, and scratches.

Camchiller® Pellet System

Maintains cold food at 40˚F (4,44˚C) or below for up to 45 minutes with a chilled plate and insulated dome.

- Shatterproof even in freezing temperatures for enhanced durability.
- Stackable for efficient and hygienic storage.
- Works with or without an underliner.
- Dishwasher safe for easy cleaning.

Insulated Meal Delivery Ware

Mastering Traytop Presentation

Transform mealtimes with elegant traytop presentations that enhances the dining experience. Our curated collections help maintain hygiene, meal quality, and ensure that patients eagerly anticipate each meal. Each collection works with our CamLids® to keep insulated mugs and bowls secure, extending temperature retention and preventing spills.

Harbor Collection

- Modern design with easy-to-grip handles.
- Made of insulated, durable polypropylene.
- Extend temperature retention and ensure safe, spill-free delivery with disposable or reusable Camlids.
- NSF Listed.

White 148 | Meadow 447 | Cranberry 487 | Navy Blue 497 | Smoked Metal 485 | Black 110

Shoreline Collection

- Classic style creates enhanced meal presentation.
- Standard and low-profile domes available.
- Low-profile domes fit the 4.5" (11,43 cm) spacing within carts.
- Chip and break resistant.
- NSF Listed.

FOOD STORAGE

The Most Efficient Food Storage System

Cambro's efficient storage solutions, including food boxes, pans, allergen-free containers, and clear labels, help streamline kitchen organization while maintaining HACCP compliance. Made from FDA-approved materials, these products enhance inventory management and food safety.

Camwear® Food Pans

- Unbreakable material provides long-lasting toughness.
- Quick and comfortable fit in prep table or food bar in cafeteria.
- Standard GN pan sizes with depth variation from 2" (5,08 cm) to 8" (20,32 cm).

NSF CA PROP 65

Transulcent Food Pans

- Translucent polypropylene pans offer durability and easy visibility for quick inventory checks.
- Safe for use from -40°F to 160°F (-4,44°C to 71,12°C), ideal for cold storage and prep tables.
- Dishwasher safe.

NSF

High-Heat Food Pans & Measuring Cups

- Withstands extreme temperatures from -40°F to 375°F (-4,44°C to 140,56°C), making it perfect for both freezing and hot food applications.
- Features dual handles for safe, easy handling and is NSF listed, dishwasher, microwave, and freezer safe.
- Designed with a smooth, non-stick interior that enhances food yield and simplifies cleaning, while being crack and chip resistant.
- Measuring cups ensure precise measurements and safe handling.

NSF CA PROP 65

BEST PRACTICES

- Minimize any food handling by using the proper storage and utensils.
- Quickly cool hot foods to a safe temperature of 70˚F (21,12˚C) within 2 hours and to under 41˚F (5˚C) within 4 hours.

BEST PRACTICES

Removing food from corrugated boxes and bringing it into cold storage protects against bacterial growth.

Camwear® Food Boxes

- Made from durable, stain-resistant Camwear material that helps maintain food quality and freshness during storage.
- Features clear construction for easy identification of contents, enhancing inventory management and minimizing food waste.
- Available in a variety of sizes and compatible with Cambro® shelving systems for versatile and efficient storage solutions.

NSF CA PROP 65

Camsquares® FreshPro Food Storage Containers

- Maximize freshness and extend the shelf life of produce by up to 2 days with drain shelves and seal covers.
- Easy-to-read graduations and color-coding simplify prep and storage processes for staff.
- Ergonomic and space-saving design with molded-in,recessed handles allowing for easy pouring.
- Available in a range of sizes from 2 to 22 qt. (1,9 L to 20,8 L).
- Offered in Camwear® and Translucent materials.

FreshPro Minis

- Perfect for storing garnishes and replace single-use plastic deli cups.
- Available in 16 oz and 32 oz. (0,47 L and 0,9 L).

Allergen-Free Squares & Measuring Cups

- Easily indicate allergen-free ingredients with purple logo.
- Protect contents with seal covers to avoid contamination.
- Graduations and crystal-clear design save time in handling ingredients during fast-paced prep and cooking.

NSF

CA PROP 65

Food Rotation Labels

- Prevent cross-contamination and ensure safe food handling by labeling and dating containers to maintain First In, First Out (FIFO) food storage.
- Biodegradable labels dissolve in the dishwasher or under running water in less than 30 seconds, leaving no sticky residue.

BEST PRACTICES

Utilize allergen-free containers and labels to denote allergens and ensure you adhere to dietary restrictions for your patients.
